Office Recycling and Kitchen Guide

Help us keep the office clean and green. Paper, cardboard, cans and plastic bottles go in the blue bins by the printers. Food scraps and coffee grounds go in the green compost bins in the kitchen. Everything else goes in the black bins.

Please rinse mugs and load them into the dishwasher instead of leaving them in the sink. The dishwasher runs every evening, and clean mugs are put back on the shelf each morning.

The fridge is cleared every Friday afternoon. Label your food with your name, and take home anything you want to keep.

Fresh fruit and snacks are restocked on Mondays and Thursdays. If you have a request for a snack or tea, add it to the suggestion board next to the coffee machine.

Thanks for helping keep the kitchen a nice place for everyone.
