CALLOWAY METRICS

Analytics for the real-time enterprise

Date: Sep 16, 2026 Author: Corporate Development Calloway Metrics, Inc.

Deal Summary

Quick summary of the deal: we want to buy Ferrolake, a Rotterdam startup of about 64 people, for roughly 41.5M total. Their streaming engine Riptrace gets warehouse changes out in under a second, and building it ourselves would cost around 22 engineer-quarters and push our real time dashboards out to late 2028. They do about 6.2M in revenue at 71% margin, burn close to half a million a month and only have around seven months of cash left, so we have leverage. Offer is 24M cash, 11.5M in our stock, plus up to 6M earnout if Riptrace hits 40 enterprise customers by end of 2027.

hi how are you
